## Controller

The liquid lens is controlled with electrical current and must be operated by a suitable lens controller. Hirose cables and liquid lens controllers are sold separately. The following controllers are considered fully compatible with ELM-25-4.2-18-C:

- Optotune embedded controller ECC-1C
- Optotune industrial controller ICC-4C-500

Additional selection of controllers is available at <https://www.optotune.com/controllers>
